For the Attention of the Members of the Australian Bonanza Society

Dear Peter,

I sure that you and your members are now familiar with the CASA Airworthiness Directive released Friday last that states the Inspection and subsequent replacement of the Forward Elevator Cables for Beechcraft Debonair, Bonanza and now Baron Aircraft.

I write this letter as an invitation to the members of your organization that we at Hawker Pacific would like to offer our services to comply with this Airworthiness Directive.

Also, it's our intention to offer a ten (10) dollar decrease in our labour rate to each of your members so as to show our continuing support to your organization and to firm our relationship into the future.

We are offering our maintenance facilities in Bankstown, NSW and Perth, WA that have both suitable maintenance staff and the very best in Service and Quality. I include the contacts for each facility below;

**Andrew Kearney**  
**Senior Maintenance Supervisor**
